Roejen Poolvacc: Manual Pool Vacuum Cleaner

1 Introduction**1.1 The Roejen Poolvacc : Manual Pool Vacuum Cleaner**

The Roejen Poolvacc manual pool vacuum cleaner. Ideal for the larger commercial applications. Based on a powerful all plastic centrifugal pump with a simple strainer basket and mounted to a stainless steel trolley with locking and swivel wheels.

Sized to fit a standard door frame, the unit comes with a filter cartridge so the water can be recirculated directly back to the pool.

Supplied with 50mm ribbed suction hose and cam lock fittings for easy connection.

2 Features**2.1 System Overview**

- Stainless steel Trolley
- Swivel and locking fixed wheels
- 15 meters of 50mm suction hose
- 5 meters of discharge hose
- Cam lock connections
- RCD protection
- 10 meters of power cord
- Power Isolator
- Optional Jumbo Strainer
- Throttling valves to aid priming and control
- 2 x 6 meter sections of interlocking aluminium pole
- 600mm vacuum head
- 700 watt motor
